KEY PROJECTS

CPP Platform Management | NestJS · Next.js · AWS · PostgreSQL · Docker

Enterprise insurance product management platform for SBI, ICICI, and Bajaj Finance. Handled policy lifecycle, claims processing, and real-time banking API integrations at scale (1M+ users).

AI-Powered RAG Pipeline | LangChain · OpenAI API · Vector DB · NestJS

Built a retrieval-augmented generation system enabling intelligent document search and automated Q&A over enterprise insurance data. Integrated vector embeddings and semantic search to improve retrieval.

Therabody E-commerce Platform | Node.js · Contentful · PostgreSQL · REST APIs · AWS

Developed and maintained backend APIs for Therabody's IoT wellness device e-commerce platform, integrating Contentful CMS to manage product catalog, content delivery, and inventory workflows. Enabled seamless content sync between CMS and storefront, reducing manual update effort and ensuring consistent product data across web and mobile channels..

Hybrid - Property Management Platform | Next.js · Node.js · MongoDB · AWS

Workplace and property management system covering booking, asset tracking, and tenant communication modules. Integrated third-party APIs for payment and notification workflows.

Quick Connect - Multichannel CRM | Node.js · React.js · PostgreSQL · Redis · AWS

Customer communication platform supporting email, SMS, and WhatsApp channels with real-time dashboards and analytics.
